BIHAR AND ORISSA

Without this Sachet
no EUGENE wave is
genuine

Only the hairdresser who uses Eugene in Sachets can give you a genuine Eugene Wave. For in the patent perforated steam sachet lies the great secret of permanent waving. It achieves its wonderful results by gentle and safe means—allowing only clean white steam to come in contact with your hair. Some methods bake the hair to ensure permanency but they achieve this result at the cost of beauty.

The Eugène method not only gives permanency but enhances the hair's natural sheen and moulds it into lovely lasting waves which have become famous the world over. Refuse all substitute sachets therefore. Insist on Eugène.

At teething time — contentment!

THE fretfulness associated with teething time gives place to contentment if you give baby "Ovaltine" Rusks to bite upon. They assist the tiny teeth through the gums and the comfort thus afforded removes the cause of baby's discontent.

"Ovaltine" Rusks continue their good work as baby grows older. Their very deliciousness will always give pleasure, but even more important is their value in encouraging mastication, which in turn ensures proper development of jaws and teeth and lays the foundation of a sound digestion.

"Ovaltine" Rusks are made from the finest wheaten flour, to which is added a proportion of delicious "Ovaltine." Adults appreciate their crisp freshness. For chota hazri, early lunch and afternoon tea, they are ideal. They are particularly acceptable to invalids and to the aged, being easily assimilable and readily digested.

4 Months

Every drop of Barclay's Lager has to serve a period of imprisonment in store before it is released for sale. Four months at freezing-point before bottling! Four long months at least in which it gradually comes of age, steadily perfecting its condition and acquiring, in the only possible way, the true Lager flavour.

"The very word 'Lager' in itself means 'store.' No beer is genuine Lager until it has been matured for a long period in store before being bottled."
